

google::protobuf::io  
::ZeroCopyInputStream

```
graph BT; A[google::protobuf::io::CopyingInputStreamAdaptor] --> B[google::protobuf::io::ZeroCopyInputStream];
```

The diagram illustrates an inheritance relationship between two classes in the Google Protocol Buffers library. At the bottom is a grey rectangular box containing the text 'google::protobuf::io::CopyingInputStreamAdaptor'. At the top is a white rectangular box containing the text 'google::protobuf::io::ZeroCopyInputStream'. Two blue arrows originate from the top edge of the grey box and point upwards to the bottom edge of the white box, indicating that 'CopyingInputStreamAdaptor' inherits from 'ZeroCopyInputStream'.
