

btCollisionAlgorithmCreateFunc

```
graph BT; A[btCompoundCollisionAlgorithm::CreateFunc] --> B[btCollisionAlgorithmCreateFunc];
```

The diagram illustrates a relationship between two function names. At the top, a white rectangular box with a black border contains the text "btCollisionAlgorithmCreateFunc". Below it, a gray rectangular box with a black border contains the text "btCompoundCollisionAlgorithm::CreateFunc". Two blue arrows originate from the top of the gray box and point upwards to the bottom of the white box, indicating that the function in the gray box inherits from or implements the function in the white box.

btCompoundCollisionAlgorithm
::CreateFunc
