

cocos2d::plugin::PluginProtocol

```
classDiagram
    class cocos2d_plugin_ProtocolAds["cocos2d::plugin::ProtocolAds"]
    class cocos2d_plugin_PluginProtocol["cocos2d::plugin::PluginProtocol"]
    cocos2d_plugin_ProtocolAds --|> cocos2d_plugin_PluginProtocol
```

The diagram illustrates a class hierarchy. At the bottom is a gray-shaded box labeled 'cocos2d::plugin::ProtocolAds'. A blue arrow points vertically upwards from this box to a white box at the top labeled 'cocos2d::plugin::PluginProtocol'. This indicates that 'ProtocolAds' inherits from or implements 'PluginProtocol'.
