

btVehicleRaycaster

```
graph BT; A[btDefaultVehicleRaycaster] --> B[btVehicleRaycaster];
```

The diagram illustrates a class hierarchy. At the top is a box labeled 'btVehicleRaycaster' with a gray background. Below it is a box labeled 'btDefaultVehicleRaycaster' with a white background. Two blue arrows point from the top of the 'btDefaultVehicleRaycaster' box to the bottom of the 'btVehicleRaycaster' box, indicating that 'btDefaultVehicleRaycaster' inherits from 'btVehicleRaycaster'.
