

flatbuffers::Table

```
graph BT; A[flatbuffers::LayoutComponentTable] --> B[flatbuffers::Table];
```

The diagram illustrates an inheritance relationship between two FlatBuffers classes. At the bottom is a gray-shaded box labeled 'flatbuffers::LayoutComponentTable'. Two red arrows point upwards from this box to a white box at the top labeled 'flatbuffers::Table', indicating that 'flatbuffers::LayoutComponentTable' inherits from 'flatbuffers::Table'.
