

SimuCocos

The diagram illustrates the SimuCocos architecture. It features a main container labeled 'SimuCocos' at the top. Below this, a horizontal bar contains eight components: 'tools', 'plugin', 'external', 'extensions', 'docs', 'cocos', 'build', and 'cocos2d'. The components 'tools', 'plugin', 'external', and 'cocos' are highlighted with red borders, while 'docs', 'build', and 'cocos2d' have black borders. The entire structure is enclosed in a light blue rectangular frame.
