

b2Vec2

```
graph BT; b2TempPolygon[b2TempPolygon] -.->|normals, vertices| b2Vec2[b2Vec2];
```

The diagram illustrates a data flow from a box labeled 'b2TempPolygon' at the bottom to a box labeled 'b2Vec2' at the top. A dashed purple arrow points upwards from the 'b2TempPolygon' box to the 'b2Vec2' box. To the right of the arrow, the words 'normals' and 'vertices' are stacked vertically, indicating the data being transferred.
