

RuntimeProtocol

```
graph BT; RuntimeCCSImpl --> RuntimeProtocol; RuntimeCCSImpl --> RuntimeProtocol;
```

A UML diagram showing two classes. The top class is 'RuntimeProtocol', represented by a gray-filled rectangle with a black border. The bottom class is 'RuntimeCCSImpl', represented by a white-filled rectangle with a black border. Two blue curved arrows originate from the top of 'RuntimeCCSImpl' and point upwards to the bottom of 'RuntimeProtocol', indicating a directed association or dependency between the two classes.

RuntimeCCSImpl
