

`gim_array< GUINT >`

```
graph BT; gim_bitset -- m_container --> gim_array["gim_array< GUINT >"]
```

The diagram illustrates an inheritance relationship. At the bottom is a box labeled `gim_bitset`. A dashed purple arrow points upwards from this box to a box at the top labeled `gim_array< GUINT >`. The arrow is labeled `m_container` to its right.

`m_container`

`gim_bitset`
