

btCollisionAlgorithmCreateFunc

```
graph BT; A[btSphereBoxCollisionAlgorithm::CreateFunc] --> B[btCollisionAlgorithmCreateFunc];
```

The diagram illustrates a relationship between two function names. At the bottom, a light gray rectangular box contains the text "btSphereBoxCollisionAlgorithm::CreateFunc". Two blue arrows originate from the top edge of this box and point upwards towards the bottom edge of a white rectangular box at the top. The top box contains the text "btCollisionAlgorithmCreateFunc". This visualizes that the function in the bottom box inherits from or implements the function in the top box.

btSphereBoxCollisionAlgorithm
