

btSoftBodySolverOutput

```
graph BT; A[btSoftBodySolverOutputCLtoCPU] --> B[btSoftBodySolverOutput];
```

The diagram illustrates a data flow relationship between two software components. At the bottom, a gray rectangular box is labeled 'btSoftBodySolverOutputCLtoCPU'. Two blue curved arrows originate from the top edge of this box and point upwards towards the bottom edge of a white rectangular box positioned above it. The top box is labeled 'btSoftBodySolverOutput'. This visualizes the transfer of data from the lower-level CPU interface to the higher-level solver output.
