

ResizableBuffer

```
graph BT; A["ResizableBufferAdapter< std::basic_string< CharT, Traits, Allocator > >"] --> B[ResizableBuffer];
```

The diagram illustrates an inheritance relationship. At the top is a box labeled 'ResizableBuffer'. Below it is a larger, shaded box labeled 'ResizableBufferAdapter< std::basic_string< CharT, Traits, Allocator > >'. Two blue arrows point upwards from the shaded box to the 'ResizableBuffer' box, indicating that the adapter class inherits from the base class.

ResizableBufferAdapter
< std::basic_string< CharT,
Traits, Allocator > >
